

BISHOP POTTER, the head of the great Episcopal Church in New York City, has astonished the clergy and the laity as well, by publicly denouncing the Prohibitionists. He calls them "arrogant, denunciatory, impotent, unscrupulous and uncharitable," and intimates that they are a set of hypocrites. It is the opinion of many great minds of to-day that Bishop Potter's influence is

George Brooks, one of the oldest citizens of Whitesville, failed to commit suicide yesterday, but, on account of the suspicion aroused in a druggist, Mr. Brooks, who is more than eighty years of age, old wartime Knox's drug store bought ten cents' worth of morphine. Immediately afterward he went to Litley's drug store and bought 15 cents' worth of the same drug. As soon as he sold it to him, Mr. Litley, notified with the answer that he had given when asked what he wanted with morphine to the conclusion that the old

ture which will necessitate the expenditure of still further sums. Roughly speaking, the appropriations for this Congress will foot up the staggering total of one billion, six or seven hundred million dollars—a sum almost beyond comprehension. The worst of it is that the expenditures now entered upon are part of a general policy which, once begun, must be continued, and this seems to be the step in an era of extravagance. The Dingley tariff act has been a disappointment even to its friends in the matter of yielding sufficient revenue.

KENTUCKY CROP REPORT.

The Condition of Crops and Live Stock in the State on March 15, 1899.

Reports were received this month from 153 correspondents, representing 95 counties.

WHEAT. The condition of the wheat crop December 1st, the date of the last report, was 80, compared with 75 in 1898.

Answers to the question "Has wheat suffered from any cause during the winter?" If so, the cause, "resulted in a loss of 15 per cent," was given by 115 correspondents, which number 97 state that wheat suffered from "frost," and 18 say it had not been appreciably damaged during the winter.

Heavy rains, particularly in the western section, is another source of no considerable damage.

The condition for the State as a whole, compared with average 1898, is 80, which is a loss of 14 points since December 1st. For the three preceding years the condition on March 1st was as follows: 1898, 92; 1897, 88, and 1896, 88.

The three sections separately show the following average conditions: Eastern, 88; Western, 70; central, 85, and eastern, 88.

The per cent of crops of 1898 still in the hands of farmers is estimated at 40. On March 1st, 1898, it was estimated that 17 per cent of preceding year was then in the hands of farmers. On March 1st, 1897, a similar estimate showed 9 per cent of the old crop in farmers' hands.

The price of wheat March 1st averages 60c. On March 1st, 1898, the average price was 60c., and March 1st, 1897, the price was 84c.

CORN. Estimate on the percentage of crop of 1898 still in farmers' hands give the amount at 42 per cent. On March 1st, 1898, the per cent of crop of preceding year in hands of farmers was 42 per cent.

LIVE STOCK. The trying effects of the unusually severe winter on live stock has been most keenly felt by the abundance of feed. Still, among young stock no unusual loss has been reported.

The condition of the various classes of live stock averages follows: Horses, 94; cattle, 90; sheep, 80, and hogs, 90. The conditions March 1st, 1898, were: Horses, 90; cattle, 85; sheep, 75, and hogs, 85.

Replies to the question "Have you had cholera?" show a notable increase in this common disease. Of the answers to the question, 100 say "yes," and 100 say "no."

WHEAT. The period from February 10th to 14th will be long remembered as one of the most phenomenal low temperature. Remarkable not only for the low temperature recorded, but also for the fact that this temperature was maintained.

During a period of some ten days, the mercury never above zero, and on March 1st it was 10 degrees below zero. The minimum of 10 and 24 and even as low as 39 degrees below zero were reported during this time. In addition to the low and enduring of the cold, the cold injured the fruit crop in early March. Peach trees will not only be a failure this year, but the apple trees are such that the crops for several years to come will be affected.

The same is true of cherry and plum trees. The possible exception of some cherries. Pears, though injured to some extent, still promise a fair yield. Apples have escaped injury save the injury to trees from heavy sleet in some sections.

Of the small fruits, raspberries have suffered most and will probably be a failure. It is feared, too, that the injury extends to the wild blackberries. Strawberries have escaped injury so far.

Chamberlain's Cough Remedy. This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has been used for all of these diseases, over a large part of the civilized world.

The most effective remedy for cough, croup, whooping cough, and influenza. It has been used for all of these diseases, over a large part of the civilized world.

A female San Jose is stirring up the State of Missouri. Recently in a sermon she said: "There is a man in this audience who is untrue to his wife. I am going to throw this hymn book at him." She raised the book to throw and all looked on and saw her. She blundered the dog and landed the one true man. It was afterwards learned that he was dead and she was alive.

A Lucky Man. CHATTANOOGA, TENN., March 9.-J. C. Kline, of this city, received notice from Washington that his claim for \$20,000 for services in the United States army had been allowed. Clerk Kline, who is now eighty-two years of age, was a Colonel of a Union regiment during the civil war. He was promoted among the officers and was reduced to the rank of captain.

BRYAN'S FIGHTING STOCK.

A Small Sketch of the Ancestors of the Great Free Silver Hero.

William J. Bryan, great-grandson of Mrs. Mary J. Cobb, has just celebrated his ninety-sixth birthday. She is a daughter of the Revolution, and it is a wonder that Colonel Bryan claims that he has fighting blood in his veins.

Mr. Bryan has fighting blood in his veins on both sides of his family. His paternal second great-grandfather and four of his brothers were Revolutionary soldiers and fought side by side in the battle of the Cow Pen, King's Mountain, Camden, Eutaw Springs, and a number of smaller engagements. They were members of Morgan's famous regiment of riflemen, and it is probable that they were also with him at the battle of the Cow Pen, King's Mountain, Camden, Eutaw Springs, and a number of smaller engagements.

FAREWELL ADDRESS.

A Gem from the Pen of Tennessee's Popular Ex-Governor, Bob Taylor.

I am about to shuffle off this mortal coil of politics and fly away to the bosom of my native mountain, where I shall stand on the peaceful shore and look down on the receding flood of politics. The dove of my destiny has brought me an olive branch from happy fields, and I go hence to labor and to live.
